

+以网络连接思维

优点

- 享有我们为您提供的7X24小时技术支持
- 专业的技术支持，更快的解决您的问题
- 从线路、客户支持与端到端设备管理的一站式服务
- 有效利用客户既有网络资源
- 依靠我们成熟稳定的网络基础，经验丰富的工程师不断的对新技术的研究，这些都保证您可以一直享受到最新的技术方案和世界级的服务

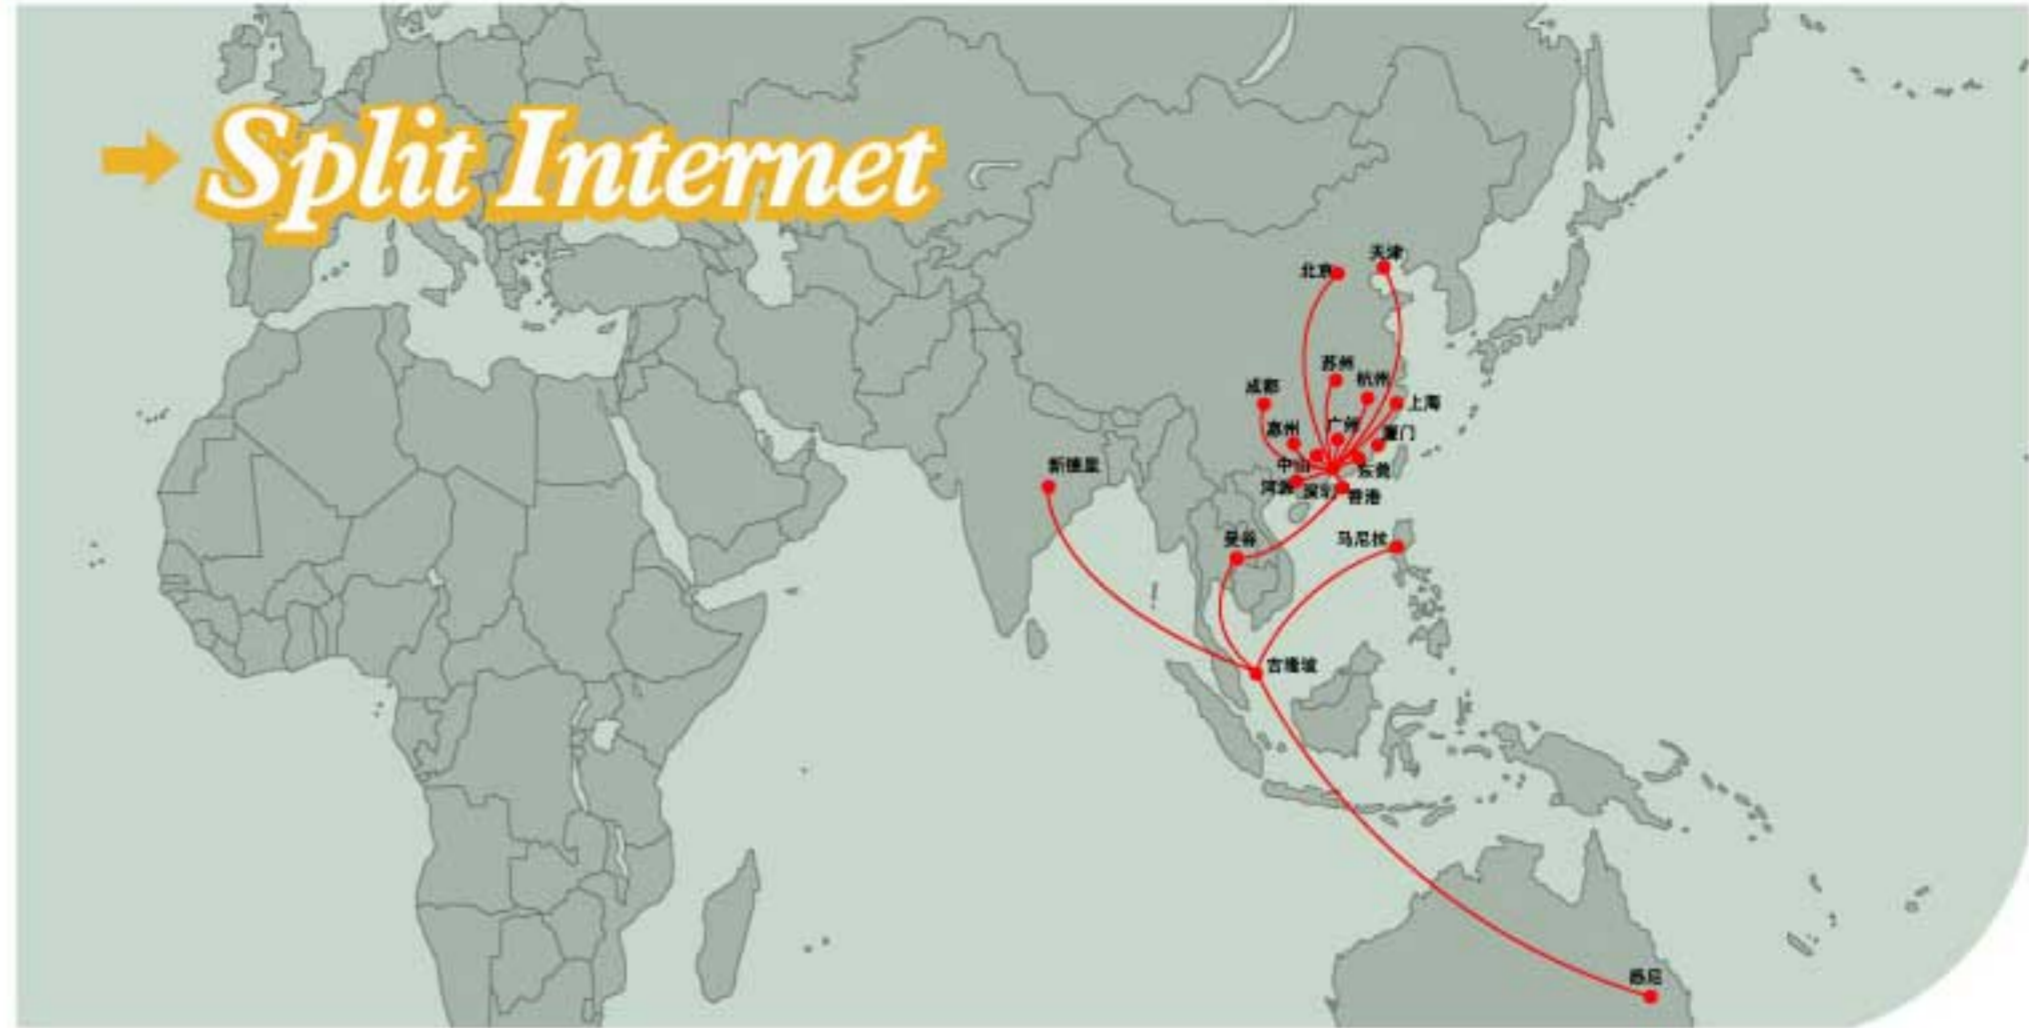

在中国内地，由于南北网络互联互通的瓶颈问题，导致不能快速访问跨域网络，跨域邮件收发难，跨域网站打不开，即使客户拥有大带宽的互联网接入，也难以解决这样的问题。

中人新电信根据此种情况，推出Split Internet解决方案。为网通互联网出口用户高速接入电信互联网出口或为电信互联网出口用户高速接入网通互联网出口，快速、稳定访问南北电信，保证原接入线路的网络访问通过本地线路访问，直接快速，不占用过多的带宽，访问更加直接，更加高速。

特色

- 线路稳定，带宽保证
- 双线分流
- 智能、快速访问南北电信网络
- 广泛的网络覆盖，提供有效的数据传输服务

+ *Connecting minds. Connecting business*

Benefits

- **Diligent Service & Professional Consultation:**
Provide with you24x7 technical support services for a prompt response to urgent inquiries and consultations
- **Intelligence Connection:**
Auto-detection, the speed to cross-border network
- **One-stop solution** from leased line, customer support, end-to-end network management
- **Efficient & Cost-effective solution**
- **Latest technology:** Building on our mature, robust and stable network and leveraging on our experienced engineers continual investigation the latest technology and industry trends, to ensure the intelligence connection solution remains a world class service

Advantage

The internet users in China Mainland, especially the enterprises located in south or north China, face the cross-china Internet inter-connecting bottlenecks. Can not access to cross-region web, email losing, even with sufficient bandwidth those challenges are still boring the enterprise application and causing the harm to the mission critical data transmission.

ZR's Split Internet solution effectively solve the china mainland inter-connection ISPs Internet communication problems. China Telecom users enabled with China Netcom internet access port and China Netcom users enabled with China Telecom internet access port which guarantee the speedy and stable connection within China. Adapted our leading intelligence connection technology, local access intelligence routing make internet access more efficient without bandwidth overloaded, eventually help enterprises overcome the challenges winning competitive advantages.

Features

- Stable network, guaranteed bandwidth
- Intelligent, High speed access to CT, CNC and local internet
- Service Provider Independent
- Extensive network coverage, provide cost-effective internet services
